

Drive
customers
to your business

Driving your \$\$ savings

At Super Cheap Signs we are always thinking of ways to provide better quality for lower prices. A bit backwards thinking, but think about it.

By offering quality products we make sure you get noticed for all the right reasons. By offering low prices we help you make a strong return on your signage investment.

So, this week we want to offer some money saving tips.

More importantly we want to talk about how your vehicle(s) can drive customers to your business. Or, how driving to work will still cost you money at the pump but could earn you much more in return.

Car-wrap alternatives

Bright, noticeable, fully-wrapped cars cruising down the highway are eye-catching but expensive. Vehicle wraps are a worth-while investment but damaging to the pocketbook. Vehicle Lettering and car magnets, on the other hand, are cost-effective alternatives to full car wraps.

Both vehicle lettering and car magnets showcase what your business has to offer while sitting in traffic or parked at a job site.

For a simpler, inexpensive yet professional solution to getting your message out to new customers while on the road, we recommend car magnets. These are great for businesses with small fleets or business looking for a less permanent vehicle advertising solution.

Our magnets are made to stick on your car and stick out to your customers.

Vehicle Lettering

For company vans and trucks parked at your job site or event, we recommend vehicle body lettering. Use the doors and sides of your vehicle to advertise your company brand everywhere you go.

And to get more bang for your buck, we also offer rear window lettering.

Top reasons:

- Cost-effective and professional
- Multiple solutions for your business needs
- Visually appealing and attracts attention

Big messaging for less \$

Car wraps, letters, and magnets are all good ways to get attention. But, what about those with a smaller budget (start-ups, non-profits, summer camps, and the like)?

Well, share your message in a smaller way of course. Bumper stickers and decals are some of the most cost-saving forms of vehicle advertising. Though small in size, bumper stickers and decals can get your message out in a big way.

Make your message stick

From how's my driving, to promoting events, bumper stickers make a lasting impression. Our stickers are made with 4mm glossy PVC vinyl. Because they are digitally printed, we can print any full color image. We use UV light cured inks in our printing process to seal in the image and prevent fading in the sun or rain.

If you are looking for something more customized to attract customers to your business, we recommend using decals. Decals offer a personal touch.

Our decals are customized to fit your needs and cut out around the shape of your design. We offer single color, full-color printing, and every color in between to make sure your message stands out even more.

Bumper Stickers:

- Full-color options
- UV-cured inks to prevent fading
- Simple but attractive

Custom Decals:

- Customized and creative
- Full-color on white vinyl
- Adds a personalized touch

Contact Us

Super Cheap Signs is an Austin, TX based company established in 1991. Super Cheap Signs offers customizable yard signs, banners, stickers, car magnets, and other printed materials.

We offer screen printing and digital printing services. Above all, we are a team of people working hard to provide you with signage to make sure your hard work doesn't go unnoticed.
