# About Us

Welcome to Novelty Lights, your trusted source for premium holiday and decorative lighting since 1999. With over 25 years of experience, we've dedicated ourselves to bringing festive cheer and professional-grade lighting solutions to homes, businesses, and events across the nation.

## Our Specialty

At Novelty Lights, we focus heavily on Christmas and holiday lighting, offering a wide range of products specifically for this season. This specialization allows us to provide an extensive selection of commercial grade lighting options, including the widest variety of light colors, color temperatures, wire colors, and spacings. Our broad selection ensures that customers can find the perfect lighting solution for any occasion, setting us apart as the go-to source for holiday lighting needs.

## Quality You Can Trust

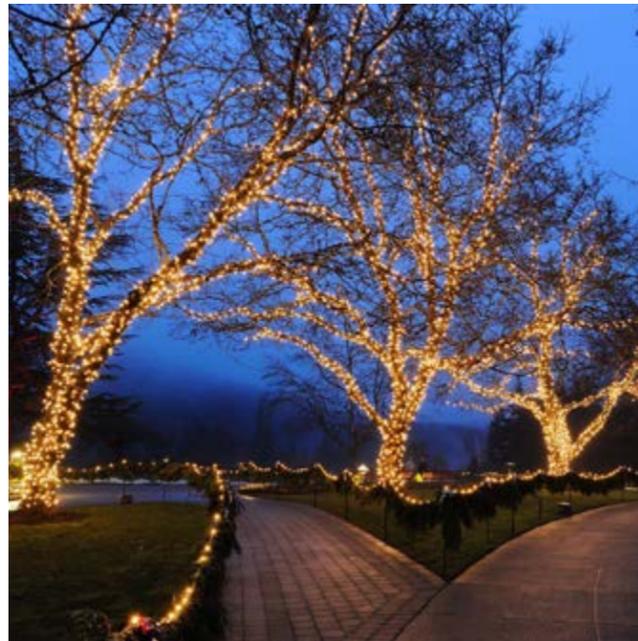

We pride ourselves on delivering products that meet the highest standards of quality and durability. Our lights are designed to withstand the elements, ensuring that your displays shine brightly year after year. Whether you are a homeowner looking to create a festive ambiance or a professional installer in need of reliable bulk options, you can count on Novelty Lights to deliver.

## Customer-Centric Service

At the heart of our business is a commitment to exceptional customer service. We believe in old-fashioned values like personalized assistance, integrity, and going the extra mile for our customers. When you shop with us, you are not just purchasing lights – you are joining a community that values quality, creativity, and a shared love for the holidays.

## Innovation

We stay ahead of the curve by continuously expanding our product line to include the latest in lighting technology and trends.

### Features and Benefits:

- PeakPro Diamond Bright Lens for maximum sparkle and brilliance
- Ultra-Efficient: Only 0.80 Watts and 0.0067 Amps per bulb
- Impact-Resistant Polycarbonate Housing – no more broken glass or fragile filaments
- Dimmable – great for animated or dynamic displays
- Long-Lasting Performance with a 3-season warranty
- Diamond Prism creates an even distribution of light - Bright from tip to base
- 360 Degree Viewing angle
- Versatile Compatibility: Use with our C9 and C7 Stringers (10', 12.5', 25', & 100'), commercial bulk spools, and vintage-style Twisted Wire with E17 (C9) or E12 (C7) Bakelite Sockets

Novelty Lights PeakPro Diamond Faceted C9 & C7 Retrofit Lamps deliver unmatched brilliance, durability, and efficiency – designed for pros, trusted by everyone.

Part of our PeakPro Series, these high-performance retrofit bulbs feature a stunning diamond-cut faceted lens that produces dazzling light effects perfect for rooflines, trees, walkways, and building outlines.

Each bulb is equipped with 2 ultra-bright SMD LEDs, enclosed in a rugged, UV-resistant polycarbonate shell that won't chip, fade, or crack – even in harsh winter conditions. These dimmable LEDs are ideal for static or animated displays and are built to withstand commercial use year after year.

Shop Novelty Lights' Vintage Style Smooth Ceramic LED C7 and C9 Bulbs for a classic holiday glow with modern efficiency.

These durable plastic bulbs replicate the look of traditional incandescent ceramic bulbs but use 90% less energy and stay cool to the touch – perfect for indoor and outdoor use. With a 40,000-hour lifespan, they're ideal for rooflines, trees, and vintage displays.

Compatible with C7/C9 stringers, bulk spools, and Twisted Wire for timeless, energy-saving illumination.

**Features and Benefits:**

- Smooth ceramic finish for a classic, vintage look (in durable plastic)
  - Energy Efficient: Uses 90% less power than incandescent bulbs
  - Cool to the Touch: Ideal for indoor and outdoor use
  - Long Lifespan: Up to 40,000 hours of illumination
- Compatibility:**
- C7 Stringers and C9 Stringers (10', 12.5', 25', & 100')
  - E17 Heavy Duty light strings (25', 100', & 330') for C9 bulbs
  - Commercial-grade 1000' bulk spools (C9 & C7)
  - Vintage Twisted Wire with E17 (C9) or E12 (C7) Bakelite Sockets

Novelty Lights' Glass LED C7 and C9 Bulbs blend vintage elegance with modern performance. Utilizing DIP LED technology, each bulb includes ultra-bright diodes encased in smooth, clear glass for an antique incandescent look. These energy-efficient bulbs use 1/10 the power of traditional incandescent, stay cool to the touch, and are vibration resistant – ideal for year-round indoor and outdoor use.

### Features and Benefits:

- Available in C7 and C9 sizes
  - DIP LED Technology with ultra-bright diodes per bulb
  - Smooth glass finish for classic incandescent-like appearance
  - Uses 90% less energy than incandescent bulbs
  - Cool to the touch – safe for indoor and outdoor use
  - Vibration resistant and heat-free
  - Long-lasting with low maintenance
- Compatibility:**
- C7 Bulbs: Compatible with C7 stringers (10', 12.5', 25' & 100'), E12 Heavy Duty light strings (25', 100' & 330'), commercial-grade 1000' C7 bulk spools, and vintage Twisted Wire with E12 Bakelite Sockets
  - C9 Bulbs: Compatible with C9 Stringers (25' & 100'), E17 Heavy Duty Light strings (25', 100' & 330'), commercial-grade 1000' C9 bulk spools, and vintage Twisted Wire with E17 Bakelite Sockets

Novelty Lights C9 U-Shaped Flexible Filament LED Plastic Retrofit Bulbs feature a unique flexible (U-shaped) filament design that provides brilliant illumination visible from all angles. Available in a wide variety of vibrant colors, these energy-efficient LED retrofit bulbs are the perfect replacement for fragile, power-hungry incandescent C9s.

Crafted from high-quality, durable plastic, they resist chipping, fading, and cracking – ideal for long-term outdoor use. These dimmable bulbs are great for animated or static displays and use only 1 watt per bulb, helping you save on energy costs without sacrificing brightness. Designed for both professionals and DIY decorators alike, they bring festive color to rooflines, trees, buildings, walkways, and porches.

### Features and Benefits:

- U-shaped flexible filament for 360° visibility
- Durable plastic construction – won't chip, crack, or fade
- Energy-efficient at just 1 watt per bulb
- Dimmable and ideal for animated displays
- Available in a wide variety of vibrant colors
- **Compatibility:**
  - Fits C9 Stringers (10', 12.5', 25', and 100')
  - Works with Commercial-Grade Bulk C9 Spools
  - Compatible with Vintage Twisted Wire with E17 Bakelite Sockets

RetroGlo™ LED C7 & C9 Bulbs combines nostalgic design with modern performance to bring your holiday and year-round lighting to life. Made with a rich ceramic-style paint, these bulbs beautifully replicate the classic look of mid-century ceramic incandescent bulbs.

With LED filament technology, RetroGlo casts a warm, radiant glow while remaining cool to the touch, fade-resistant, and built to withstand the elements year after year. Each bulb uses up to 90% less energy, making them the ideal upgrade for decorators who love the look of the past but need the reliability of today.

**Choose from two nostalgic collections:**

**The Vintage Set** – Authentic color combinations inspired by 1950s and 1960s holiday displays  
*(Orange, Cream, Green, Blue, & Red)*

**The Groovy Set** – Bold, funky colors channeling the vibrant spirit of the 1970s  
*(Teal, Pink, Orange, Purple, & Yellow)*

These curated sets are perfect for collectors, designers, and anyone craving a retro vibe with high-performance LED benefits.

**Features and Benefits:**

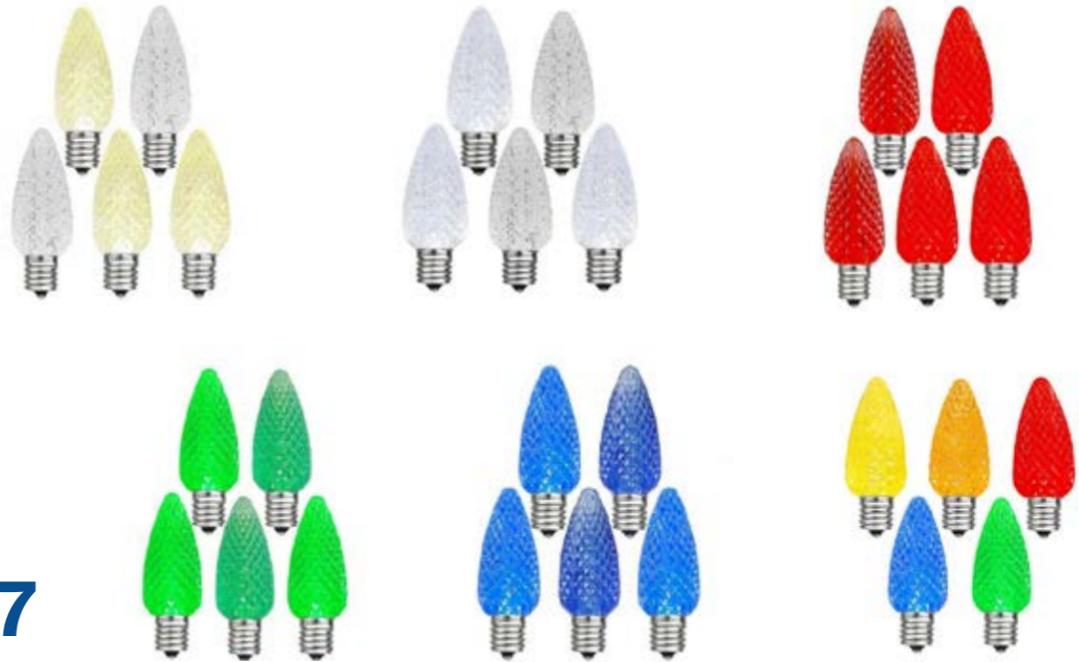

- Available in C7 and C9 sizes
  - Glass bulb with ceramic-style painted finish for authentic vintage appearance
  - LED filament design provides warm, even glow
  - Energy efficient (up to 90% less usage than incandescents)
  - Dimmable, cool-running, and weather-resistant
  - Offered in individual colors or themed nostalgic sets (Vintage & Groovy)
- Compatibility:**
- C7: Fits C7 Stringers (10', 12.5', 25', & 100'), E12 Heavy Duty Light strings (25', 100', & 330'), Bulk Spools, and Vintage E12 Twisted Wire
  - C9: Fits C9 Stringers (10', 12.5', 25', & 100'), E17 Heavy Duty Light strings (25', 100', & 330'), Bulk Spools, and Vintage E17 Twisted Wire

C72512-BR	25ft	12in	Brown

Our C7 and C9 stringers are engineered for reliable, long-lasting performance in both residential and commercial lighting installations. Available in variable lengths and with many options for socket spacing, these SPT-1 stringers come in green, white, brown and black wire colors to fit your unique project needs.

Designed for flexibility and scalability, many of these strings are end-to-end connectable, making them ideal for outlining rooflines, wrapping trees, lighting fences, or decorating building facades. Bulbs are sold separately, giving you full creative control – mix and match single-color, multicolor, or fully custom color combinations to suit your client's vision or design needs.

Easily build custom extension cords or light runs using our SPT-1 and SPT-2 male and female plugs and sockets. Designed to snap onto 18-gauge wire, each features breakaway tabs for inline splicing and supports up to 8 amps (SPT-1) or 10 amps (SPT-2). Ideal for use with our 250', 500', and 1000' bulk spools of C7 and C9 wire, trusted by professional installers for reliable performance.

Create custom vintage-style stringers with our twist-on Bakelite sockets, available in E12 (Candelabra), E17 (Intermediate), and E26 (Standard) bases. Ideal for use with Twisted Wire, these sockets offer a classic look for patios, restaurants, and events. Compatible with LED or incandescent bulbs. For indoor and outdoor use.

# Battery Powered Mini Lights

LED Battery powered Christmas light strings for holiday and special event lighting when there is no power supply. These super bright battery-operated LED lights have wide angle lights that run on D batteries (not included). Our LED battery-operated lights are built to last using a battery case with, making these units perfect for outdoor use.

The 50 LED light sets also comes with an optional timer function. Simply turn the timer on when you want the lights to come on. Once the timer is set the lights will come on at the same time every day and stay on for 6 hours. Depending on frequency of use, exposure, and battery type, most sets can last up to 2 weeks.

Battery powered Christmas light strings are ideal for decorating where power is unavailable for any holiday or special event.

# TRUE TWINKLE™ Coaxial C6 Strawberry Mini Lights

Novelty Lights True Twinkle LED C6 Light strings create a beautiful random twinkle effect with every bulb fading on and off. Unlike ordinary twinkle lights, 100% of the lights twinkle thanks to new technology.

These commercial-grade 24' strings have 70 durable, energy-efficient LEDs on 4" centers. Now available in coaxial, decorator approved!

Connect up to 43 strings end-to-end. UL listed and suitable for indoor/outdoor use.

**Features and Benefits:**

- 70 \*NEW\* True Twinkle LED's C6 Size
- True Twinkle Effect With 100% Random Twinkle Bulbs
- Wide Variety of brilliant LED colors
- Commercial Grade with Non-Removable Bulbs
- String Length: 24' Long with 4" Bulb Spacing
- This product **REQUIRES** a Coaxial Power Connector for each run of lights.
- Connector sold separately.
- Connect Up To 43 Sets End-To-End
- If a Bulb Burns Out the Rest Remain Lit
- UL Listed Indoor/Outdoor

# Heavy Duty Stringers

Novelty Lights heavy-duty E12 and E17 base light strings are built for permanent outdoor use. Featuring watertight rubber sockets, these commercial-grade strings come in 25', 100', and 330' lengths with 12" or 24" socket spacing and black, white, or brown wire. The 25' strings are end-to-end connectable. Longer lengths are for custom runs.

Compatible with all Novelty Lights E12 and E17 bulbs. Made with durable 16-gauge SPT-2 wire for year-round reliability.

# Heavy Duty Stringers

Novelty Lights commercial-grade medium base light strings are built for permanent outdoor lighting applications. Available in 37.5', 48', 100', and 300' lengths, each set features medium (E26) base sockets spaced 18" apart on heavy-duty 16-gauge SPT-2 wire.

Choose from Black, Brown, or White cord to match your space or aesthetic. The 37.5' and 48' sets come ready to plug in with end-to-end connectivity – string up to 3 sets together using our 11W incandescent or 1W LED S14 bulbs. The 100' and 300' lengths are ideal for custom installations and bulk runs.

Designed to pair perfectly with our S14 LED or incandescent bulbs, these strings deliver long-lasting, professional-grade performance year after year.

### How to Calculate Total Watts & Amps

#### 1. Total Watts (W):

Multiply the watts per bulb by the total number of bulbs.  
 Total Watts = Watts per Bulb × Number of Bulbs

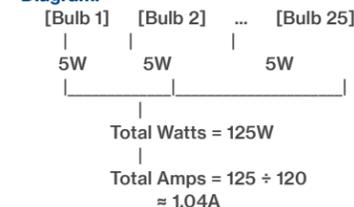

#### 2. Total Amps (A):

Divide the total watts by the voltage (typically 120V in the U.S.)  
 Total Amps = Total Watts ÷ Voltage

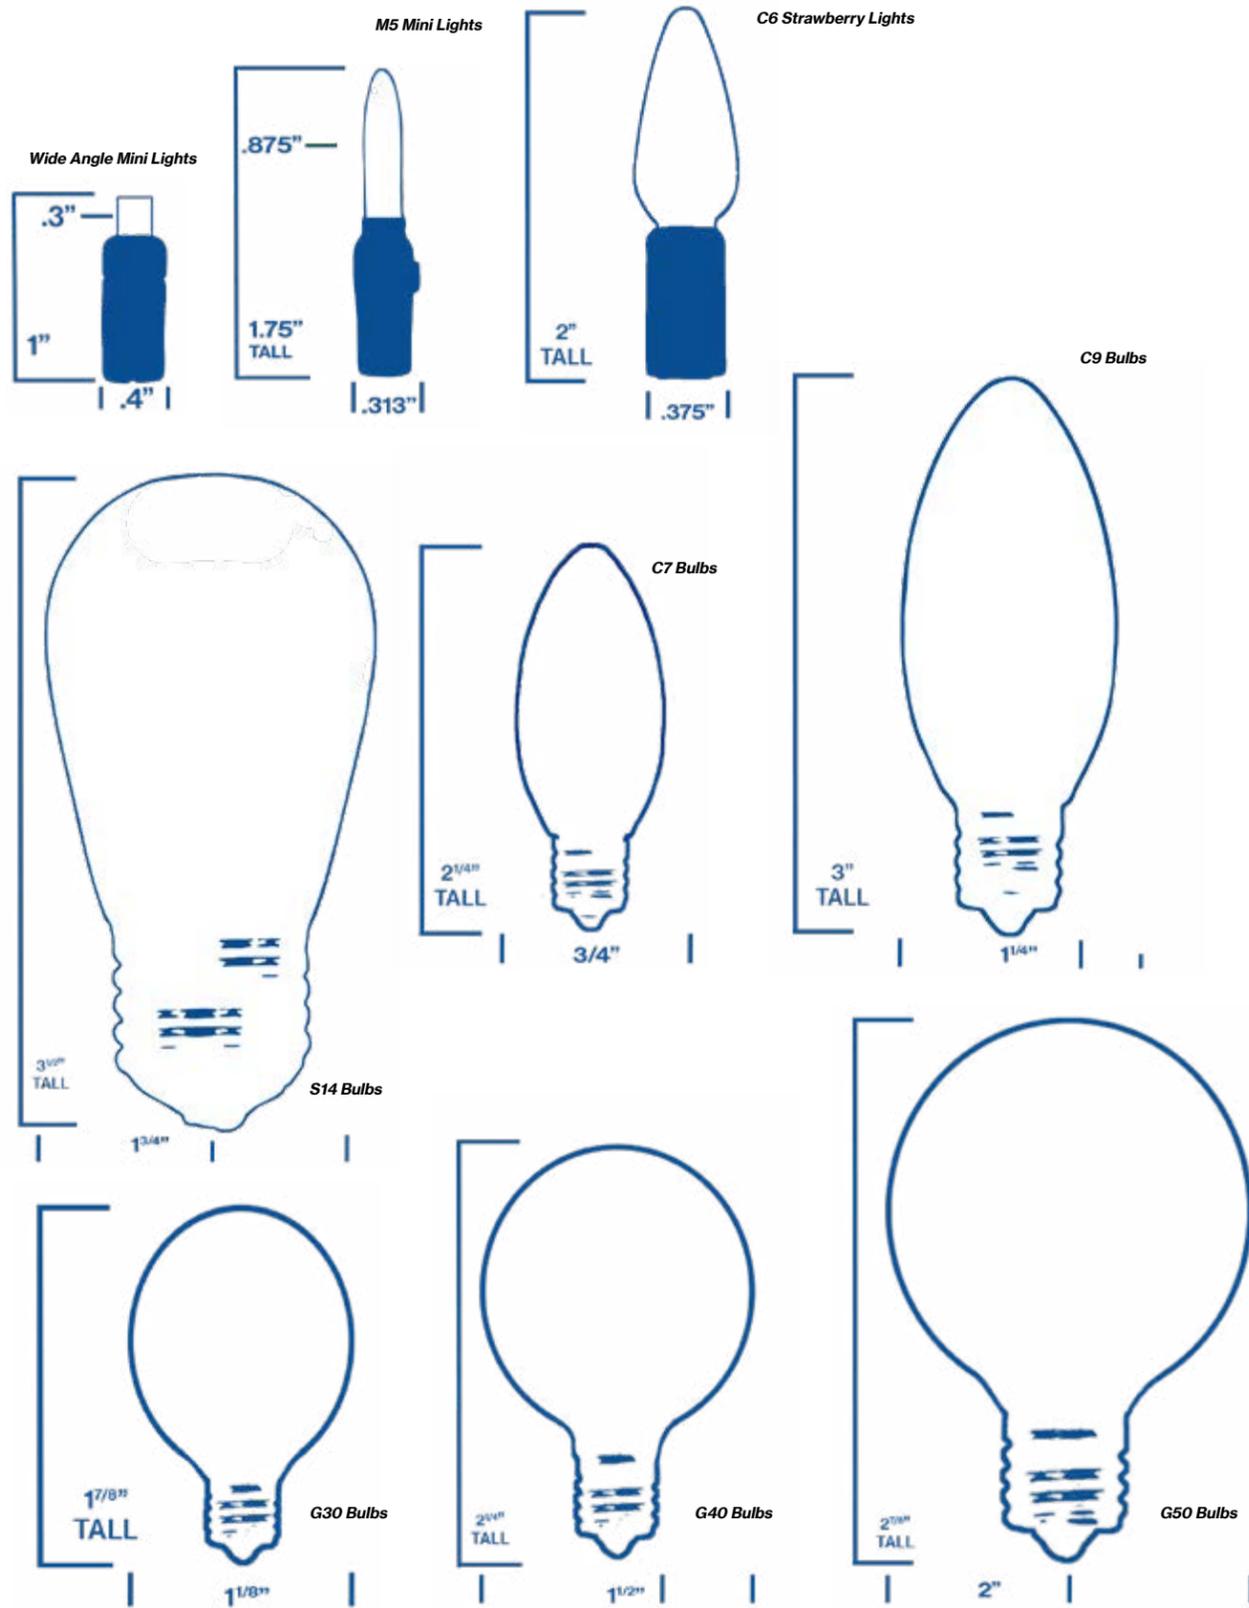

#### Example:

25 bulbs  
 Each bulb = 5 watts  
 Voltage = 120V  
 Total Watts = 5W × 25 = 125W  
 Total Amps = 125W ÷ 120V ≈ 1.04A
